FOR IMMEDIATE RELEASE

The Belize City House of Culture and Downtown Rejuvenation Project signs contract for the development of the Paslow Parking Lot

BELIZE CITY, Belize, June 3rd , 2019 – Today, the Ministry of Tourism and Civil Aviation through the Belize City House of Culture and Downtown Rejuvenation Project is please to inform the General Public that it has signed a contract with Eric Martinez and Son Construction and Design Ltd. for the construction of a new ferroconcrete building, which will be constructed at the site once occupied by the Paslow Building.

A new two-story building will be constructed at Lot 977 located at the corner of Queen and North Front Streets. The new building is one of five structures in downtown the Belize City House of Culture and Downtown Rejuvenation Project is currently investing in. The new building is designed to host a Tourist Welcome Center and vendor booths on the first floor with offices and a Café on the second. Since the site has been utilized for parking for the last few years, the new design contemplates an area for parking in the rear. Construction will commence in June 2019 and is projected to be completed at the end of 2019.

The Paslow site development is being funded by the Government of Belize, Taiwan International Cooperation and Development Fund (ICDF) and executed by the Ministry of Tourism and Civil Aviation through the Belize City House of Culture and Downtown Rejuvenation Project.

We request your patience and cooperation during the construction phase. Any questions or concerns may be addressed to the Ministry of Tourism and Civil Aviation, #106 South Street, Belize City (Tel: 227-1745).
